

## Teaching Methodology for Class 6th to 10th

At CP-Gurukul, we strongly believe that Academic Excellence, Life Skills, Personality Development & Sportsmanship go hand in hand to make true leaders of tomorrow who have the ability to make a positive difference in the society we live in. To achieve this, CP-Gurukul has designed a highly effective education system to foster the all-round development of an individual student encompassing social, physical, emotional and cultural needs as well as academic excellence. The Teaching methodology of CP Gurukul is meticulously designed focusing on excellence in school education along with focus on developing strong Mathematical, Logical and scientific aptitude and laying a strong academic foundation for future competitive examinations.

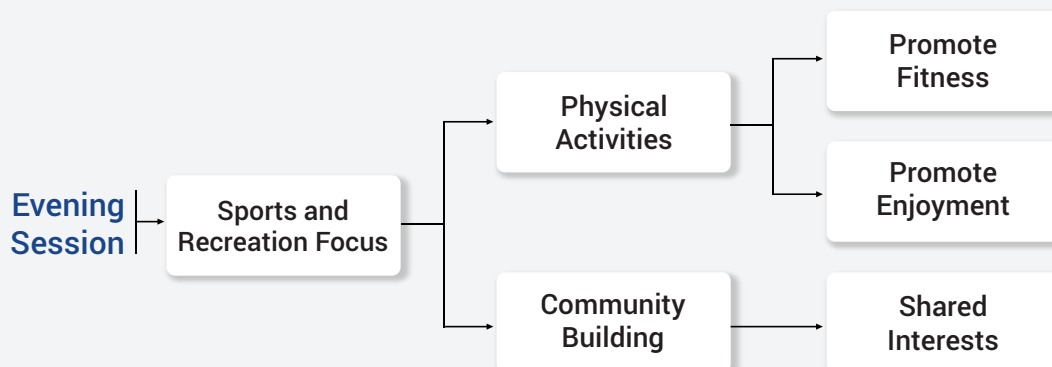

### Morning Session: Focus on School Education and Foundation for Competitive Exams

### Afternoon Session: Dedicated to Remedial Classes and Skill & Personality Development

### Evening Session: Sports and Recreation for Healthy Mind & Body

## Our Teaching Methodology

The each teaching day is divided into two seamlessly integrated sessions:

- 1. Morning Session:** Focused on School Education and Foundation Classes
- 2. Post-Lunch Session:** Dedicated to remedial classes and Skill & Personality development.
- 3. Evening Sessions:** Sports and Recreation

These sessions are synchronised to maximise efficiency, avoid redundancy, and ensure optimal use of students' time.

## Detailed Overview of the Sessions

### Morning Session: Theory Classes and Board Preparation

- In the morning sessions, our expert faculty members teach theory and build a strong conceptual foundation for both competitive exams and board examinations.
- These theory classes are conducted with ample examples to ensure that students thoroughly understand the concepts.
- After each class, topic-wise Daily Practice Problems (DPP) from reference books are assigned to students to solve independently. This helps them apply basic fundamentals learned in the class and develop their problem-solving skills.
- If a student is unable to solve any question in the DPP or has a doubt, the faculty members address these at the beginning of the next class before proceeding with the theory session. This ensures that no learning gaps remain, resulting in a thorough understanding of concepts.
- (Steps 1 to 4 are repeated for every chapter until completion.)
- After completing a chapter, students are asked to solve school-level exercise sheets. These sheets are then discussed in class to clarify students' doubts, ensuring they are fully prepared for the school/board examination and have achieved mastery in applying the concepts.
- Foundation Preparation: Once the school-level exercise sheet is done, students are asked to solve specially designed foundation exercise sheets for competitive examinations. These exercise sheets are also discussed in the classes to remove doubts.

### Post-Lunch Session: Remedial Classes and Skill & Personality development.

- Remedial Classes: For students requiring additional academic support, we provide remedial classes as per their needs. These sessions are conducted in small group settings or on a one-to-one basis, providing focused attention to address learning gaps. Our dedicated faculty works closely with such students to ensure they overcome challenges and achieve academic success.
- Skill, Hobby & Personality Development classes: At CP Gurukul, the afternoon sessions are dedicated to Skill, Hobby, and Personality Development classes. These sessions provide students with opportunities to explore their interests, develop new talents, and enhance essential life skills. From creative hobbies to leadership and communication training,

we aim to nurture well-rounded individuals prepared for the future.

**Note:** For students aspiring to pursue higher studies in the USA, we begin working with them early to build and strengthen their profiles for the admission process.

### Evening Sessions: Sports and Recreation

In the evening, we organize Sports and Recreation sessions to promote physical fitness, teamwork, and overall well-being. These sessions allow students to participate in various sports and recreational activities, helping them stay active, relieve stress, and build essential skills like discipline and cooperation.

### Test Series

Our teaching methodology includes a strong testing system to evaluate and enhance student preparation. These tests provide ample practice in an exam-like environment, helping students build confidence and examination temperament, and improve their scoring ability.

#### 1. For Board Preparation:

We conduct chapter-wise, unit-wise, and full-syllabus tests aligned with board exam patterns.

#### 2. For Competitive Exams:

Chapter Tests, Minor Tests and Full-Syllabus Test Series are conducted

### Revision Classes

After completing the syllabus, structured revision classes are conducted. These sessions follow a pre-planned schedule, ensuring students effectively retain and apply their knowledge during exams.

### Advanced Topic Classes:

Once the syllabus for the current class is completed in all respects, we begin teaching selected students the higher-level content. This gives them a head start and provides an early advantage in a competitive environment.

By integrating board and competitive exam preparation into a single, well-structured program, Career Point Gurukul ensures students achieve their academic and career aspirations seamlessly.

## Class IX-X: Board Exam/Annual Exam Preparation

### Duration: April- November

**Objective:** Focus on enhancing students' understanding of core concepts from the NCERT textbook.

- Covering the topics from NCERT and module as per Board syllabus
- Interactive Q&A: After explaining the concept, solve Intext questions and NCERT exercises from the NCERT textbook with the class after chapter completion.
- Ensure clarity in both theoretical and application-based questions.
- Assignment/Homework: Assign problems from the NCERT book or competitive exam module for practice.
- Chapter wise Test is conducted after the completion of each chapter

### Duration: December - February

**Revision:** Chapter overview, discussion of important concepts and difficult concepts.

- Focus on solving board exam-style questions from the reference book- 'ALL in One'
- Class Test (Multiple chapters combined)

### Board Exam Practice: PA, Half-yearly and Pre-boards/ Major Test

Conduct a timed practice of sample paper or past board questions as per the latest pattern.

### Catch-Up and Doubt Classes

- Catch-Up Sessions: Help students who may have missed regular classes or need extra time to reinforce concepts.
- Doubt Classes: Provide a platform for students to clarify any doubts they have after completing a lesson or exercise.

**Competitive Exams:** Focus on applying problem-solving strategies for competitive exams like Olympiads, etc., through modules and practice papers.

- Explaining the concept of extra topics (competitive level, not in the school syllabus or NCERT) from the module.
- **Assessment Test (AT):** Evaluate students' understanding of the covered topics. Use this test to identify learning gaps and areas that need revision. AT is conducted once in a month.
- **Revision:** One Shot revision of Chapter, Discussing important & problematic concept, Discussion cum doubts clearance of problem specially PYQs and selected problems of Module.
- **Mock Test:** Conduct a timed practice of sample paper or past board questions as per the latest pattern.

## Competitive Exam Preparation

### Class VI - VIII : Annual Exam Preparation (Science & Maths)

- **Objective:** Focus on enhancing students' understanding of core concepts from the School textbook.
- Covering the topics from School textbook for school exam
- Interactive Q&A: After explaining the concept, solve exercises from the School textbook with the class after chapter completion.
- Explaining the extra topics (competitive level) from the module.
- Assignment/Homework : Assign problems from the module for olympiad practice.
- Chapter wise Test is conducted after the completion of each chapter
- Assessment Test (AT): Evaluate students' understanding of the covered topics. Use this test to identify learning gaps and areas that need revision. AT is conducted once in a month.
- **Revision:** Chapter overview, discussion of important concepts and difficult concepts.
- Focus on re-solving questions from chapter exercises.
- Class Test (Multiple chapters combined)

### School Exam Practice: PA, Half-yearly, Major test (pre-annual) and Annual Exams

Conduct a timed practice of sample paper or past board questions as per the latest pattern.

### Catch-Up and Doubt Classes

**Catch-Up Sessions:** Help students who may have missed regular classes or need extra time to reinforce concepts.

**Doubt Classes:** Provide a platform for students to clarify any doubts they have after completing a lesson or exercise.

## Teaching Methodology for Class 6th to 10th

### Regular Class/ Board Classes (Morning Session)

- Theory Classes- Concept Explanation
- NCERT- Examples & Intext Questions Discussion
- NCERT Exercise Discussion (After completion of chapter)
- Board Exercise Sheet (Module Ex-1 & Ex-2)
- Doubt Clearing Session cum Back-up Classes
- Chapter Wise Test (Board Pattern)

### Olympiads Preparation

- Theory (Extra topics, if any)
- Module Discussion (Ex-2 & Ex-3)
- Doubt Clearing Session
- Assessment Test (AT-Monthly)
- Detailed Overview of Session
- In the theory classes our experienced faculty members explain concepts from the NCERT and modules and build a strong conceptual foundation for both Board Examinations and Competitive exams.
- These Theory Classes are conducted using lots of relative examples, flowcharts and diagrams to ensure better understanding of the concepts. PPTs are also used wherever necessary to make the concepts more interesting.
- After Completion of topics, examples and in-text questions given in between the chapters of the NCERT book are discussed and explained.
- NCERT Exercises given at the end of the chapters are discussed after completion of the chapter.
- Board based exercises are discussed from the modules to ensure sufficient practice is provided for the preparation of board examination.
- Doubt clearing classes are conducted to ensure students can freely discuss their doubts one on one for better understanding and clarity of the topics.
- After completion of every chapter, Chapter wise class tests are conducted to ensure correct and proper preparation of exams.
- For Olympiads- Extra topics are taught from the modules (if any) as per the requirement of olympiads.
- Practice of questions is done from modules to understand the level and type of questions which come in the exam and to ensure continuous improvement.
- Monthly Test, AT, is conducted to ensure continuous preparation of the olympiads are going on.
